# Welcome to **NICC** 2019

As President and CEO of MSA Research Inc. and the National Insurance Conference of Canada (NICC), I'd like to personally invite you to the 2019 NICC to be held September 22-24, 2019 at Le Centre Sheraton in beautiful Montréal, Québec. NICC continues its proud tradition as Canada's pre-eminent insurance conference with an outstanding agenda and networking opportunities.

The agenda that you see in this brochure is a testament to the dedication and input of our esteemed Advisory Committee and many others in the industry. We open NICC 2019 with a sweeping keynote presentation by renowned historian and author, Adam Tooze, whose recent book is 'Crashed', a masterful account of the financial crisis and the implications for today's world beset by populism, political & economic turmoil and uncertainty. As *The Economist* summed up his book, "the patient is in remission, not cured."

From the wide view, we focus in on our industry, both globally and locally across many sessions and expert speakers; we end the 2019 NICC with a keynote by Jaime Watt on the eve of Canada's pivotal election.

In 2019, we're getting truly interactive with NICC's new Discussion Groups. Be in the room where you make it happen. Choose two out of six discussion groups to suit your interest, led by expert discussion leaders across a curated selection of key topics.

I invite you to review the impressive agenda for yourself to see what's in store. As always, we also recognize the importance of networking – so we have provided ample opportunities for you to meet your colleagues and have those important discussions and jovial banter. All in all, the 2019 NICC is exactly where you, as an insurance executive, will want to be.

My very best,

Joel Baker  
President and CEO, NICC  
and MSA Research Inc.

## World Economic Forum - Global Risks Report 2019

Per Børge Brende, President, World Economic Forum: "The world is facing a growing number of complex and interconnected challenges—from slowing global growth and persistent economic inequality to climate change, geopolitical tensions and the accelerating pace of the Fourth Industrial Revolution. In isolation, these are daunting challenges; faced simultaneously, we will struggle if we do not work together. There has never been a more pressing need for a collaborative and multi-stakeholder approach to shared global problems." This thought will be the focus of Mr. Wittenberg's talk.

## Auto - Misfiring on All Cylinders. What Can be Done?

Like a musician out of tune, a misfiring car just does not sound right. Today we are misfiring in every jurisdiction in Canada on automobile insurance. No one is happy. Not consumers, regulators, politicians, brokers nor insurance companies. It is time for a tune up! Join moderator, Bob Tisdale, and panel as they look for solutions to get things running smoothly again.

The goal of this panel is to discuss and explore the insurance industry's historical struggle to innovate new products and new distribution platforms. In the space of evolving competition, how will we ensure that the insurance and reinsurance industry remains relevant for the next hundred years? Where will the insurance industry's new competitors, challenges, etc. emerge from? How will we respond and evolve?

The focused discussion group format is new for NICC in 2019. The purpose is to engage delegates to actively participate in the discussion topic at hand and encourage learning, collaboration and problem solving. Your NICC Discussion Group leader will set the stage with brief but poignant and provocative opening remarks opening the door to lively, thought provoking discussion.

Discussion groups A-F take place in TWO SEGMENTS from **15:00pm – 15:45pm** and then again from **16:00pm – 16:45pm** with the Networking Break in between (attendees will change groups after the break time).

## **A** New Resolution - Refreshing the PACICC Model

PACICC is a unique and critical component of the Canadian P&C insurance sector – an industry-funded and industry-led insolvency resolution authority. While celebrating its 30<sup>th</sup> anniversary in 2019, PACICC is working to ensure it is ready to manage the new challenges of a consolidating industry facing greater threats from climate-change fuelled natural catastrophe, as well as the risks associated with a major earthquake in BC or QC.

Key topics will include the evolving governance model of PACICC, possible changes to coverage and claims limits, as well as updates on the industry dialogue with the Government of Canada regarding earthquake insurance.

**Alister Campbell**

President and CEO,  
PACICC

## **B** Finding a New Equilibrium: The New World of Claims Management

Our world depends on insurance for everything from planes, to buildings, to automobiles and much much more. The industry is under pressure to provide great claims service, in response to the contract of insurance. The challenge is to coordinate all parties to deliver on the ever-changing customer expectations in an effective and efficient manner. This panel will dive into a lively discussion about how we can move and remove the roadblocks for a New World of Claims Management.

**Patti Kernaghan**

President and CEO,  
Kernaghan Adjusters

**Tim Guernsey**

Vice President,  
Commercial Claims,  
Economical Mutual

**Stephan Roy**

National Director,  
Disaster Restoration,

# Agenda Monday September 23<sup>rd</sup> 2019

## **C** Auto 201: Getting Under the Hood! \_\_\_\_\_

Expect a lively conversation from this group as our morning auto session panelists shift gears – and seats! – from their earlier session “Misfiring on all Cylinders: What Can be Done?”, to a revved up diagnostic of the industry’s most problematic moving parts. With a severe case of knock, ping and run-on, companies grapple with politics around pricing, changing consumer preferences, and product design constraints. This moderated panel intends to let the pistons fire as they roll up their sleeves and get under the hood.

**Carol Jardine**

President,  
Canadian P&C Operations,

## **D** Creating Diversity at the Senior Level \_\_\_\_\_

It is widely known that, in the Canadian insurance industry, especially in commercial lines, there is a diversity deficit at the most senior levels: Gender, Ethnic, Sexual Orientation etc. This is true both at the carrier and broker levels and is not a sustainable model going into the third decade of the millennia. How do we do we attract and retain diverse talent at the C-Suite level? What are the impediments and how do we overcome them?

Diversity Coach and CEO,  
Ontario Association of  
Children’s Aid Societies

**Angelique Magi**

National VP, Transportation  
and Strategic Initiatives,  
Guarantee Company of  
North America

## **E** The OSFI Reinsurance Discussion Paper Improv

OSFI's 2018 discussion paper, proposing amendments to its current reinsurance framework, is being met with mixed reviews by the insurance and reinsurance industries in Canada. Join us in what promises to be a lively, and largely impromptu, interactive discussion about the proposed changes and their implications, not only for any given insurer or reinsurer, but also to the health and resilience of the overall insurance and reinsurance market in Canada.

**Jonathan Stephenson**

Managing Director,  
Guy Carpenter

**Joseph El-Sayegh**

President and CEO,  
SCOR Canada Reinsurance

**Jonathan Turner**

SVP and CFO, Swiss Re,  
and Chair, Reinsurance Taskforce

## **F** Specialty Lines and Surety - What's Going On?

The construction industry is growing in complexity, regulations and legislation have changed, government spending is as uncertain as ever, and the speed of business is lightning quick. Meanwhile, customer expectations have become more sophisticated and elevated across all Specialty Lines. So how is the insurance industry keeping up - or are we - and what are the expectations in the next ten years? Let's discuss and see how we're going to be ready to exceed them.

08:30 • Encouraging Innovation: Breaking the Regulatory Logjams

09:45

Consumers deserve services that better suit their needs and insurers want to deliver, but outdated rules and regulations are stifling the industry's ability to innovate. Smarter regulations can create a more consumer-friendly environment while relaxing the restrictions on insurers. Hear from Canadian regulators on their plans to break the regulatory logjam and learn about global best practices.

# Agenda Tuesday September 24<sup>th</sup> 2019

## Global Economic Outlook ● 09:45 10:30

According to the IMF, we are facing a weakening global expansion going into 2020 partly because of tariffs, weaker demand and elevated sovereign and financial risks. According to the Conference Board of Canada, the Canadian economy has been driven by robust household spending driven by rising home prices and debt. But chickens have a habit of coming home to roost. Join Jerome Jean Haegeli as he takes us on a journey through Swiss Re's global economic outlook through the prism of our industry. Q&A will be encouraged.

## **WHERE INDUSTRY LEADERS MEET**

**Since 2008, WICC has had the distinct honour of being chosen as the charity of choice by the National Insurance Conference of Canada.**

In this capacity, NICC has made sizeable annual donations in lieu of speakers' gifts and, with the support from delegates across the country, WICC has hosted conference-based silent auctions and raffles, raising an 11-year NICC total of **\$174,818 in support of cancer research and awareness**. In 2018, WICC awarded MSA Research the Lew Dunn Award for their passionate and unwavering support and annual fundraising conducted at NICC.

WICC is extremely proud to participate at the 2019 NICC in Montréal and welcomes your show of support once again. Please contact Maryse Bosse at [Maryse.Bosse@aig.com](mailto:Maryse.Bosse@aig.com) regarding silent auction contributions.

WICC was formed in 1996 to mobilize the Canadian insurance industry in the fight against cancer by focusing on cancer research, support and education. **Over \$16.5 million has been raised across Canada** and the funds have been donated to the Canadian Cancer Society in direct support of cancer research projects and community initiatives.
